Blue OLED Predictive Lap Timing Display

Cena	4 774,28 zł
Dostępność	Niedostępne - sprawdź o czas realizacji
Numer katalogowy	mt_15202
Kod producenta	RL-RLVBDSP04
Kod EAN	5903713010036
Producent	Racelogic

Opis produktu

The OLED Display requires a Video VBOX to operate and **comes with a RLCAB063 cable for connection to a VBOX Video HD2 or Video VBOX Pro**. If you need a different cable to connect to Video VBOX Lite [RLCAB092] or Video VBOX Waterproof [RLCAB092H], please send us an [email](#).

Waterproof billet aluminium casing and face plate. Bright OLED screen - the perfect addition to any Video VBOX setup allowing you to view lap times as you drive. The bright 'organic LED display' is sunlight readable, and all of the displayed units are configurable.

Predictive lap timing - based on GPS position rather than distance - allows for instant, constant timing feedback during the lap.

Full features include:

- Conventional rolling lap times
- Predictive lap timing
- Split times
- Speed
- Video VBOX scene selection

The OLED has an internal accelerometer that flips the screen in accordance with the way it is mounted, and can invert screen colours or display the font as a high contrast outline to match lighting conditions.
