Opis produktu

Half roll cage AST Removable Rear Cage V2 with 4 points to the bodyshell, screwed onto 4 reinforcement plates welded to the bodyshell. These reinforcement plates are made of 3mm thick steel and are designed and manufactured specifically for each car, achieving maximum safety and fitting on the chassis. The roll cage is delivered welded and unpainted, and consists of a main hoop of 45mm diameter in E355 steel, the rest of the structure is made of 40mm diameter in E355 steel. The structure is divided in multiple sections in order to allow an easier assembly in the vehicle

Thanks to our laser scanner technology we guarantee an accurate 3D design that suits in your vehicle.

In the price of this article are included:

- Welded structure with gussets

- Reinforcement plates

- Screws, washers and nuts

- Individual documentation

- Installation manual

- Sticker set

* These structures are designed for use on public roads, check before buying the legislation of your country on the feasibility of legally installing one of these structures.

* These structures require adaptations and / or cancellations of interior elements of the car.

* None of our rear cages are designed to keep the rear seats.
