Opis produktu

10Hz GPS Data Logger and Pit Lane Timer Display in one. The new VBOX Pit LaneTimer takes the guesswork out of the crucial pit stop period of an endurance race.

VBOX Pit Lane Timer recognizing the preset pit lane entry point as it is crossed, displays the velocity until the car comes to a stop and then counts down to zero to indicate when it is time to get out again. In addition the high brightness LEDs change colour and intensity, giving the driver an indication as to whether the pitlane exit will be reached too early, too late, or exactly right.

The timer logs stint and pit lane times to SD card.
